Re: Priority Case Management Statement

This is primarily a request for declaratory relief regarding the enforceability of certain defaults. This case management statement alleges that the slander and libels are inherently invalid primarily because they were obtained through fraud at the state court level through inequitable conduct of the city police of Napa, California and may now have influenced the police in Klamath Falls, Oregon to use their punks to harass me. As a result of the Napa County Courts failure to reverse this illegal conviction on their own, several new reports have been filed in the Klamath County Circuit Court in Klamath Falls, Oregon. These damages will be sent to this court because they are damages that should have been foreseen by Napa County and their failure to abide by the rule of law and respect for human rights.

I had been an executive secretary since age 18. After being traumatized by the legal justice system, I tried to change professions. I graduated as an associate of the administration of justice in 1994. Immediately, after graduation, my paralegal business took off enforcing judgments. As the various discriminations have multiplied, I had also trained to be self-employed for business, horseshoeing, horse-training, welding, and automotive. However, none of these careers have been an option to provide a livelihood due to the states' illegal suspension of my driver's license.

### **1. A brief description of jurisdictional issues**

In 1995, I was convicted of stalking and sex offense crimes through an illegal plea bargain. (A misdemeanor to felonies). This occurred in ~~the~~ the courts of Napa County, Napa, California. I have never been entitled to a legitimate appeal in that case.

I have suffered numerous hardships. The prolonged loss of my children and the consequential summary punishments have been more than I can bear. The substantial loss of assets; a rightfully inherited trust estate of \$100k, real and personal property, and a valid California driver's license are more than anyone should ever have to suffer from the obscure government oversights related to this originating case. Due to the seriousness of the offenses, I am unable to become employed in any field of the workforce that I was trained for. The harassment has been more than intolerable and it is going beyond any form of legal solution. It had better stop before I am forced to take matters into my own hands.

No attorney has been available to assist me so I have had to file arduous state and federal cases at all levels of the courts in the states of California on my own (now

expanding into Oregon). All cases have been continually dismissed for "lack of jurisdiction" or unacknowledged.

After filing federal summary judgments on a timely basis (the State of California defaulted), I consolidated the cases and sent them to the Federal Claims Court in Washington, D.C under a category entitled "Failure To Pay". These cases were again dismissed for lack of jurisdiction. I have had to continue taking it to the international level for the several counts of cruel and unusual punishment that comes along with the sex offender status.

In addition, I filed numerous reports regarding my \$100k family estate trust. The estate originated in the Napa Courts in California and consolidated at the 9<sup>th</sup> circuit court of appeals. As to date, I have not had any cooperation regarding it being returned to its rightful owner.

I do not want to have to deal with any more of your American punks or your courts of "justice"! The deep seated hatred I have of the United States and their Jews is more than I can bear. I need to move to a "jurisdiction" with the remainder of my property (my horses), where there is less filth and lucre and perjuring lies, where I can be permitted to drive legally, where I can rid myself of social security funding and be a productive citizen, where I can finally obtain proper health care that I can trust, where I will no longer be a target of harassment by the Department of Justice, where I can finally find a decent companion without the threat of separation by being illegally detained or illegally incarcerated, where I can try and start a new life and try to forget that this country ever existed so that the deep seated hatred that this nation has taught me will finally subside.

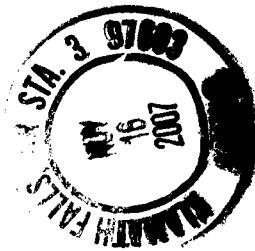

I have been cooperative at every step. If the U.S. Government will not be held accountable for these severe constitutional and civil right violations, then I want the return of my family estate monies so that I can be free to relocate to Canada in hopes that they can provide a safe haven for me to live out the rest of my life; where I may find it possible to live a life free from hatred, discrimination at all levels, hostility, willful ignorance and common banality.

Please direct me to a form of **affirmative action** beginning with the return of my \$100k family trust estate. Until then I will begin to contact the embassy in Canada and submit evidence as to the misappropriations of justice, increasing damages and the pain and suffering from the inhumane treatment I have suffered by the originated case of the Napa County courts.

With all due respect,
